BULBS AND PLANTS FOR AUTUMN PLANTING

HOLM & OLSON, Inc.

Nurserymen - Florists - Landscape Architects

ST. PAUL, MINN.

Spring Flowers from Fall Planting

FALL 1925

IN YOUR GARDEN the Spring flowers will always be the most cherished of the year. Their first blossoms come while the last of the Winter snow is just melting and from then on till Summer their brilliant colors are a continual delight. By planting plenty of these inexpensive bulbs and hardy perennials now, you will be certain of garden pleasures next season. After freezing weather has set in, cover the bulbs and perennial plantings with straw or leaves several inches deep as a Winter protection.

IN YOUR HOME you can grow easily many bright flowers to cheer and comfort the household during the Winter. The bulbs are simple to handle for in each one is stored plant food and energy with which to develop the foliage and flower. Conditions for growth need only be favorable to have splendid results. Be sure to have some of these bright flowers in your house this Winter by starting the bulbs now.

FOR BEST SERVICE ORDER EARLY. Timely orders mean that you will be prepared when weather conditions are most favorable for planting and your orders can be filled when our own stock is complete in every variety.

Special Collections of Bulbs for House Culture

We are able to offer the following collections of bulbs at a special price by reason of the purchase of a greater quantity of these varieties. These collections are made up from the same quality bulbs that we offer separately.

COLLECTION NO. 1

Price \$3.00. Parcel Post paid, \$8.25. (Value \$8.75 if bought separately). Contains:

6 First size Hyacinths; all different. 24 Single Tulips in four colors. 12 Narcissi in four varieties. 2 Chinese Lilies. 44 choice bulbs in all.

COLLECTION NO. 2

Price \$5.00. Parcel Post paid, \$5.40. (Value \$6.75 if bought separately). Contains:

12 First size Hyacinths. 36 Single early Tulips in 6 varieties. 24 Daffodils in six varieties. 12 Jonquils. 3 Chinese Lilies. Total, 87 bulbs.

COLLECTION NO. 3

Price \$10.00. Express or Parcel Post prepaid \$10.50 (Value over \$13.00 if bought separately). Contains:

12 Exhibition size Hyacinths. 36 Single early Tulips, six varieties. 24 Double Tulips, four colors. 36 Daffodils, six varieties. 12 Freesia. 12 Crocus 12 Polyanthus Narcissi, 3 varieties. 12 Jonquils in 2 varieties. 6 Chinese Lilies. Total, 162 choice bulbs.

Bulb Bowls

Muskota.

Mastique.

These bowls are especially adapted for growing such bulbs as Chinese Lilies, Paper-White Narcissi and Hyacinths. Most bulb bowls offered are too shallow. These are deep enough for the largest bulbs and insure against the plant falling over when grown up. They are suited for planting bulbs in water with pebbles or the bulb fibre.

MUSKOTA BOWL. Colors, green, blue, old rose and yellow, in high luster glazed finish. This is of the best grade of pottery, and they are fine for holding cut flowers when not in use for bulbs.

5-inch opening, 90c each; \$1.00 each, postpaid.
6-inch opening, \$1.35 each; \$1.50 each, postpaid.
7-inch opening, \$1.75 each; \$1.95 each, postpaid.

MASTIQUE BOWL. The design and soft color effect of pale yellow and blue on grey body is very pleasing, and suggestive of old Egyptian pottery.

5-inch opening, 70c each; 80c each, postpaid.
6-inch opening, 90c each; \$1.00 each, postpaid.
7-inch opening, \$1.20 each; \$1.35 each, postpaid.
8-inch opening, \$1.50 each; \$1.65 each, postpaid.

Mother of Pearl Chips

For use in bowls or aquariums. These chips are about the size of small seashore pebbles, which they resemble. They have a bright iridescent lustre, which makes them very attractive, particularly for bulb bowls.

1-pound package, 20c each; 25c each, postpaid. 5 pounds, 75c. Parcel post extra.

Bulb Fibre The growing of bulbs indoors is a source of great pleasure during the Winter months. **Bulb Fibre** will be found a great aid and a simple way to grow bulbs. It is scientifically prepared, containing several ingredients in the proper proportions best suited to bulb culture. It is clean and odorless and yet contains plant food such as bulbs need. Should be kept moist and treated like soil. Quart, 20c; half peck, 70c; peck, \$1.25. Mail or express extra.

Single Early Tulips

OUTDOOR PLANTING. Any good garden soil prepared by spading to a depth of 10 to 12 inches is suitable. Plant the bulbs five inches apart for mass effect and about four inches deep. The bulbs should all be planted at an equal depth if they are desired to bloom at the same time. Raise the bed several inches above the lawn or walk to encourage drainage. Firm the soil well about the bulbs and mulch the beds with leaves or straw before severe cold sets in.

HOUSE CULTURE. Plant six or more bulbs in a pot. Set in a cool dark place for a period of six to ten weeks, to allow roots to develop. They can then be brought into the light for flowering. (Follow same instructions as for Hyacinths.)

NOTE. The approximate height in inches is indicated by a figure, following the variety name.

Total, 156 Fine bedding Tulips for \$7.00, parcel post, prepaid.

Artus, Chrysolora and Cottage Maid Tulips.

NOTE: ADD 5c PER DOZEN FOR TULIPS IF TO BE SENT BY PARCEL POST.

Late or May-Flowering Tulips

May-flowering Tulips include many species and types. The Darwin, Cottage and Breeder types, comprising the principal and most important classes, have relatively the same blooming season, viz.: usually two to three weeks later than the early-flowering type.

They are wonderful flowers and make a most gorgeous showing in the garden or border, the large cup-shaped blooms on tall, erect stems surpassing in color effect any other flowers. As they come into bloom before the shrubs and other hardy plants are fully leafed out or are in blossom, these Tulips are most valuable and desirable.

The Darwins are the best known and the more popular of the late-flowering group, with many varieties of intense color. They vary from deep violet-black, purple, crimson and scarlet, salmon, rose-pink to the faintest lilac, with innumerable intermediate shades. Our list this year is most complete, with many new and desirable varieties.

NOTE. The approximate height in inches is indicated by the figures following the variety name.

H & O SPECIAL MIXTURE OF DARWIN TULIPS

This mixture is made up especially for us in Holland, and is comprised of all first class varieties. 60c per 12; \$4.50 per 100.

NOTE: ADD 5c PER DOZEN FOR TULIPS IF TO BE SENT BY PARCEL POST.

Cottage Tulips

These beautiful Tulips are quite similar to the Darwins. In height and habit of growth they are alike, but vary considerably in the shape of the flowers, some of which are globular, others pointed and some with reflexing petals. Many are sweet scented, and the range of color and shades comprises every imaginable tint. In the following list, we offer some of the best and leading varieties:

H & O SPECIAL MIXTURE OF BREEDER TULIPS

A special mixture of many kinds

\$0.75 \$5.00

Double Tulips

The double Tulips are especially desirable for outdoor planting and bedding. The large peony-like blossoms are highly ornamental, coming into bloom a little later than the early varieties of single Tulips and before the Darwins. The flowers last a long time and make a grand display when planted in groups or beds.

The same cultural directions apply to double Tulips as to the early single varieties.

Darwin Tulips.

Narcissi or Daffodils

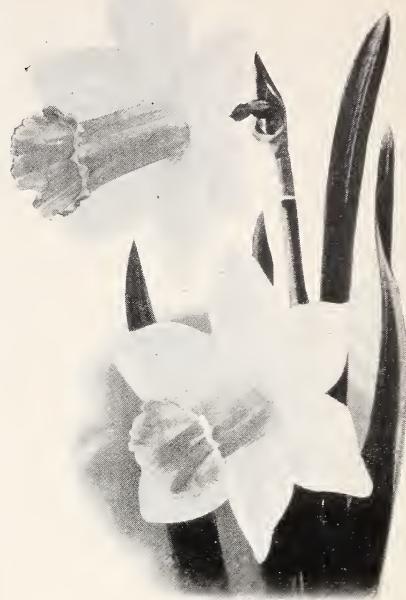

The Narcissi are among Spring's earliest flowers, and there is no reason why we should not partake of the pleasures they bring with the first warm days of Spring. The Narcissi grow in almost any location, doing well in sunny or shady places, and it matters not if wet or dry. They continue to bloom year after year, increasing in size and effectiveness. They are valuable to place in the border of perennials or shrubbery, where they can be left undisturbed, and for naturalizing in the grass. For forcing, treat the same as Tulips, planting them in pots. The flowers assume many forms, and present charming combinations of white, gold, orange, sulphur and pure yellow.

NO MORE NARCISSI

The U. S. Dept. of Agriculture, through the Federal Horticultural Board has placed an embargo on all Narcissus bulbs, effective January 1st, 1926, which means that this is the last opportunity to secure Holland-grown bulbs. We strongly urge lovers of these beautiful flowers to secure these bulbs while available.

Properly planted and cared for they become permanent in the garden, increasing in number, bringing the joy of Springtime to the home.

COLLECTION NO. 10. One each the the thirty **Exhibition Size** Hyacinths named above for \$6.00. Parcel Post Prepaid.
COLLECTION NO. 11. One each of the thirty named varieties in the **First Size** bulbs for \$4.25. Parcel Post Prepaid.

Holm & Olson
Hyacinths

Our Hyacinth bulbs are secured from a specialist in Holland and imported direct. The bulbs are perfectly ripened and cured, insuring maximum results.

INDOOR CULTURE, IN POTS. Growing Hyacinths indoors is a very simple matter. The pleasure derived in watching the rapid development from the time the sprouting starts until the large truss of flowers has fully developed, and the added pleasure of bright, cheerful, sweetly perfumed flowers during the dreary Winter days, is ample reward for the slight effort.

Use good rich soil. Place some pieces of porous material such as broken flower pots in the bottom so as to insure drainage. Fill in enough soil so as just to cover the top after being well firmed. Use 4- to 5-inch pots for the larger bulbs when planted singly. A number of the small bulbs planted in a $\frac{1}{2}$ or $\frac{3}{4}$ height pot is very satisfactory. After putting they should be thoroughly watered and then placed in a cool, dark place (preferably a vegetable cellar) for a period of six to ten weeks. This develops the roots.

To ascertain the right time to bring into light, tip the pot upside down, tapping gently so as to lift pot off soil. If several of the white roots show it is then safe to bring them into light. Better results are secured by growing them as cool as possible.

OUTDOOR CULTURE. Plant the bulbs uniformly about 6 inches deep. Doing so carefully will insure them blooming evenly. When planting a larger bed, the best plan is to remove about 4 inches of soil, firm about 6 inches apart each way, and cover them firmly.

YELLOW

City of Haarlem. Pure yellow. Large spike.

King of the Yellows. Canary-yellow.

Yellow Hammer. Pure yellow. Early.

WHITE

Arentine Arendsen. Very large bells, pure white.

Christmas White. Pure white. Early.

La Grandesse. Pure white. Large truss.

L'Innocence. Tall, fine spike.

Queen of the Whites. Finest white. blooms late.

White Lady. Large, compact spike.

BLUE SHADES

Bismarck. Sky-blue. Very early.

Enchantress. Light blue.

Grand Maitre. Deep porcelain-blue.

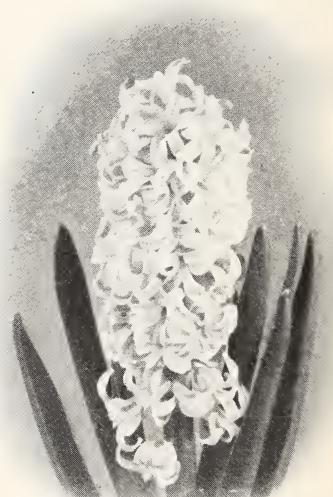

Johan. New. Pale sky-blue.

King of the Blues. Intense violet blue.

Lord Derby. Porcelain-blue.

Myosotis. Light blue. Fine spike.

Queen of the Blues. Light blue.

Grand Maitre Hyacinth.

Chinese Sacred Lilies

These are most easy bulbs to grow indoors. They may be planted in soil, but are preferably grown in bowls of water, with pebbles to hold them upright. Each bulb sends up from four to ten stems, producing great clusters of large wax-like blossoms, with yellow centers, and which are very fragrant. Some blooms are single, others double, but all equally beautiful. Mammoth sized bulbs, 20¢ each; \$2.00 per dozen. Add 20¢ per doz. if to be sent by mail.

Lilies

These should be potted firmly in good rich soil and placed in a cellar or cool dark place until the roots show when the soil is tipped out of pot. They may then be placed in a warm light place when they will start and continue to grow and bloom.

Each Doz.

Lilium Harrisii. The Bermuda Easter Lily. Early, large bulbs	\$0.35	\$3.50
Lilium Giganteum. The Japan Easter Lily. Large bulbs35	3.50
Lilium Candidum. The Madonna Lily. Large bulbs.. .	.25	2.50

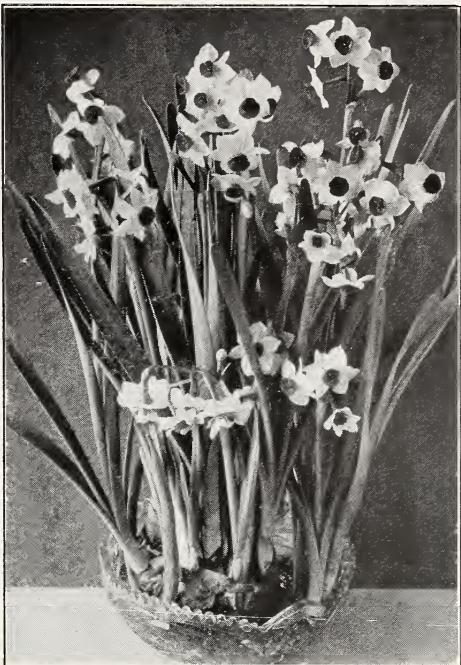

Add 25¢ per dozen for postage if to be sent by mail.

Calla Lilies

Aethiopica. The largest flowering white variety. Large roots, dormant \$0.35 \$4.00

Little Gem. A smaller variety, but blooms very freely. Strong roots, dormant30 3.00

Elliottiana (The Yellow Calla). Strong dormant roots .60

Chinese Sacred Lily.

Freesias

These dainty, spicy, sweet-scented blossoms can easily be had in bloom at Christmas if planted early. They are only suited for pot culture as they are not hardy. Plant a number of bulbs to the pot and keep in a cool place such as a vegetable cellar until the roots show through the soil when tipped out of pot. After bringing into light, they should be kept in as low a temperature as possible to get best results.

Purity. Pure white. Giant bulbs. 90c per doz.; large bulbs, 50c per doz. Parcel post, free.

Rainbow Freesias. Yellow, pink, blue, lavender, etc. \$1.00 per doz.; \$8.00 per 100. Parcel post free.

Freesias.

Miscellaneous Bulbs

	Doz.	100
CHIONODOXAS. Charming bright blue flowers, blooming as soon as snow is off the ground	\$0.40	\$3.00
ERANTHIS (Winter Aconite). Brilliant yellow flowers, blooming very early30	2.00
FRITILLARIA IMPERIALIS (Crown Imperials). Immense, deep red flowers on tall stems. Large bulbs40	4.00
IXIAS. A fine mixture of these bright, long-stemmed flowers. Only suited to indoor culture40	3.00
MUSCARI HYACINTHS. A pretty early-blooming flower. Extra strong bulbs50	3.50
OXALIS (Buttercup). Fine large yellow flowers. Strong bulbs.....	.50

SCILLA NUTANS (English Blue Bell). Strong bulbs.....	.40	3.50
SCILLA SIBIRICA. Bright blue star-shaped flowers produced very freely50	3.50
SNOWDROPS. These popular little white flowers come peeping out of the ground just as soon as the snow is gone. Largest bulbs35	2.50

Crocus

These bright, cheerful flowers are earliest of all to bloom. They are often in bloom before the snow has gone. A few dotted about in clusters in the lawn is a most pleasing view from indoors.

The colors come in bright golden yellows, deep blue to light blue, striped and pure white.

Plant them anywhere. The simplest way is to take a sharp trowel and raise sod enough to drop bulb in place. Do not plant too deep, one inch, not to exceed two inches is best.

H & O Mixed Crocus. 25¢ per dozen; \$1.75 per 100; \$16.50 per 1000.

Extra Large Named Varieties

These may also be grown in pots indoors. Treat same as Tulips or Hyacinths.

	Per	Doz.	100
King of the Whites. Pure white	\$0.40	\$3.00	
King of the Blues. Large sky-blue40	3.00

Flowering Shrubs

For Fall Planting

A few well-placed flowering shrubs will add lasting beauty and attractiveness to the home grounds at a very moderate cost. Ask our LANDSCAPE DEPARTMENT to suggest "where" and "what" to plant to get the best results on your own grounds.

There is a real advantage to planting the hardier shrubs in the Fall so that they can become established before Winter. The varieties listed, selected carefully from our large general stock, are recommended for Fall planting.

Specimen Shrubs of larger size than the average can be supplied in nearly every variety. Prices for these older plants run from \$1.50 to \$5.00 each.

More complete descriptions will be found in our large catalog "CREATING YOUR LANDSCAPE"—sent on request.

Hardy Phlox for Fall Planting

A brilliant, showy garden flower of middle to late Summer.

PLANTING. Space the plants 15 to 18 inches apart and set the roots about 2 inches below the ground surface. After freezing weather cover these new plantings with a light mulch of straw or hay.

For more complete descriptions see our large catalog "CREATING YOUR LANDSCAPE"—sent on request.

QUANTITY RATE. For lots of a dozen or more of one variety use the price of ten. Example: Plants at 30¢ each are \$3.00 per dozen.

Perennial Phlox.

Special Choice Hardy Phlox Collection

12 field-grown roots, 2 each of six standard varieties selected for variations in colors, Value, \$3.90. SPECIAL COMBINATION PRICE (12 plants), \$3.00. (Packing Free, Express Extra).

Perennials—Hardy Garden Flowers

The PERENNIALS are those plants whose roots, persisting over Winter, produce new foliage and flowers the succeeding year. Plants of this type with a tendency to be permanent in character have great value and use in the home-yard gardens. Plant them in beds, in borders or in the foreground of shrubbery groups. Such varieties as are listed here are selections of the hardiest sorts and can be advantageously planted in the Fall—preferably early Fall. After the ground has frozen a covering of straw or hay, several inches deep, should be spread over the new plantings as a Winter protection.

PRICES. Unless otherwise noted, 1 yr., 30c each; \$3.00 per doz. Strong 2 yr. plants, 40c each; \$4.00 per doz.

Plants priced at 35c each, are \$3.50 per doz.; 40c each, \$4.00 per doz.; 50c each, \$5.00 per doz.

NOTE—Our perennial stock is of the best quality and we take special care in digging and packing orders. Because of the perishable nature of such material we cannot assume any responsibility as to the future outcome of any plantings. All orders are accepted on these conditions.

For complete lists of plants and full descriptions, see our large catalog "CREATING YOUR LANDSCAPE"—sent on request.

ACHILLEA. Double, pure white flowers.
ACONITUM (Monkshood). Spikes of deep blue flowers. 40c; 2 years. 50c.

Peonies

For Fall Planting

A few choice plants of PEONIES will fill your garden with color and fragrance from late May through June. Even the rose cannot excel in beauty and charm the flowers of the modern Peony. Here, under our northern conditions, it is peer of all flowers in combining so well the qualities of absolute hardiness, great color variation, size, beauty and fragrance of bloom.

PLANTING. The roots should be set with the "eyes" 2 to 3 inches below the surface and the soil tightly packed about them. Allow a spacing of about 3 feet between the plants.

The soil should be of good substance and the location free of tree roots and dense shade. Bone meal is preferred as a fertilizer. A light covering of straw, after the ground has frozen is desirable.

NOTE: The figures directly following the variety name denote the comparative rating given by votes of the American Peony Society in 1921. The valuation is on a scale of 10 as the perfect score. Any variety given a rating of 7.0 and over can be considered as highly desirable. We list only those sorts suitable to our northern conditions and that have proven their value as producers under ordinary garden culture.

QUALITY. The "roots" are substantial plants with 3 to 5 strong eyes. The "clumps" vary in size but are the 2- to 4-year old stock. These older plants are desirable when immediate flowering results are wanted.

For more complete descriptions see our catalog, "CREATING YOUR LANDSCAPE," copy sent on request.

Mons. Jules Elie, Bomb Type.

Single Flowered Peonies

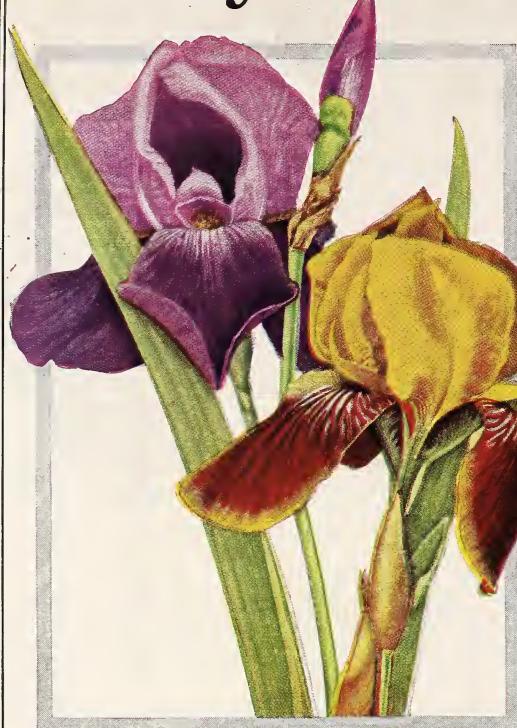

Popular taste is rapidly awakening to the beauty and charm of the single flower. Their simplicity and delicate structure leads many to prefer them to the heavy, double showy types.

	Roots	Clumps	
	Each	Each	
Albiflora (The Bride).	8.4. Large white.....	\$2.00	\$5.90
Etienne Dessert.	Large, cup-shaped flower with broad petals of a lively crimson	4.00	
Exquisite.	White, center yellow stamens. Mid-season	10.00

Marie Jacquin.	8.3. Delicate rose-white.....	1.00	
Mikado.	8.6. Dark crimson. Like a giant red Poppy. Gold center	2.00	4.00
Tenuifolia.	Crimson. Cut-leaf foliage	1.00	2.00

Why not enjoy such a Peony border in your yard?

Hardy Iris for Fall Planting

Iris is so generally considered as one of the most beautiful of perennial plants as to rightly deserve its common name—"The Hardy Garden Orchid." For cutting use, as house and table decorations, the Fleur-de-Lis is highly desirable. Stalks of flowers, cut when in bud, often last a week indoors.

PLANTING. Early to late Fall is the ideal planting season for Iris. Set the roots only deep enough to have them covered with soil and avoid any fresh manure as a fertilizer. A mulch of hay or straw spread over the new plantings after the ground has frozen is a good Winter protection. Almost any situation with good sunlight and fair soil will prove satisfactory for planting.

PRICES. The 1-year plants are strong, thrifty roots; the 2-year stock is heavier and will produce results more quickly.

Quantity Rate. For lots of a dozen or more of one variety use the price of ten. Example: Plants at 30¢ each are \$3.00 per dozen.

NOTE. In the descriptions "S" or "Standards" refer to the three upright petalés. The letter "F" or "Falls" refers to the three drooping or lower petals. 1-Yr. 2-Yr.

Archeveque. (New). Standards deep violet-purple; falls rich velvety violet	\$1.00	\$1.25
Aurea. Rich chrome-yellow	.35	.60
Bridesmaid. S., white shaded silvery lilac; F., white, frilled lilac	.25	.40
